EDUCATION

DigiPen Institute of Technology, Redmond, WA — Graduating Summer 2027
Master of Science in Computer Science, Artificial Intelligence Specialization

Tecnológico de Monterrey (ITESM), Mexico City, MX — Graduated June, 2023
Bachelor of Science in Computer Engineering — *GPA 94/100*

SKILLS

PROGRAMMING LANGUAGES
Java, JavaScript, TypeScript, Python, C/C++, C#, SQL, NoSQL

FRAMEWORKS & TOOLS
Spring Boot, ReactJS, React Native, Node.js, AWS (S3, EC2, ECS, ECR), GCP, MongoDB, Django, Unity, Git/GitHub, REST APIs, Google Apps Script, Large Language Models (LLM), Chatbot/Conversational AI Development, Dialogflow, IBM Watson, Machine Learning

CORE COMPETENCIES
Code Review & API Design, Agile/Scrum Methodologies, Learning Unfamiliar Systems Independently, AI-Assisted Development, Modern Web Development with Cloud Services, Cross-Platform UX

WORK EXPERIENCE

Capgemini — Mexico City, MX
Back-End Developer — April 2024 – May 2026

- Collaborated on a cross-functional team integrating Blue, BBVA's AI assistant, into the bank's large-scale production banking systems.
- Designed and shipped **REST APIs** and backend services connecting LLMs, frontend, and databases, ramping up independently on an unfamiliar, high-stakes codebase.
- Partnered with frontend, data, and ML engineers through **code review** and Agile ceremonies to ship features that improved day-to-day workflows for employees and end users.
- Authored technical documentation that shortened ramp-up time for new teammates

Scale AI — Remote
Back-End, Part-time Student Internship Program — 2022 - 2024

- Built **TypeScript + Node.js** services for large-scale web data collection and automation.
- Redesigned core workflows for scalability and reliability, cutting processing errors and turnaround time.
- Reviewed teammates' code and incorporated feedback on mine, building a habit of collaborative code review

NDS Cognitive Labs — Mexico City, MX
Full-Stack Student Internship Program, First Author — August 2022

- Co-authored a **JOURNAL PUBLICATION** about dynamic search for AI chatbot retraining.
- Built a ReactJS web app for dynamic document search, cutting users' time-to-information.
- Integrated MongoDB and IBM Watson APIs to improve chatbot retraining and UX.

MAJOR PROJECTS

Personal Portfolio Website — July 2026
Back-End Developer

- Building an interactive site (Next.js App Router, TypeScript, Tailwind CSS v4, shadcn/ui, Motion) featuring a professional work section and a digital illustration gallery, aimed at recruiters

Amazon Recorder System Helper — Fall 2022
Lead Front-End Developer

- Built a **ReactJS + Java** application to record and analyze call center interactions for Amazon Connect.
- Deployed on **AWS (S3, EC2, ECR, ECS)** + Docker for a reliable cloud-based system.

AI Project - Urban Mobility — January 2022
Back-End Developer

- Designed a Unity-based multi-agent simulation with smart traffic lights and autonomous agents modeling intersection traffic, combining gaming and AI interests
